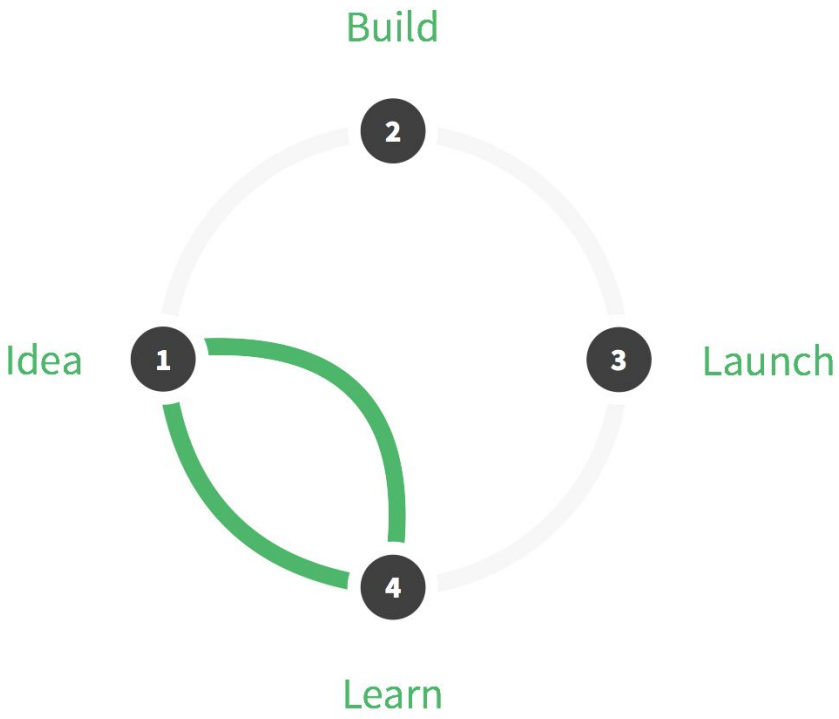
Innovate

We are here today
to solve <u>real</u>
DAO governance challenges

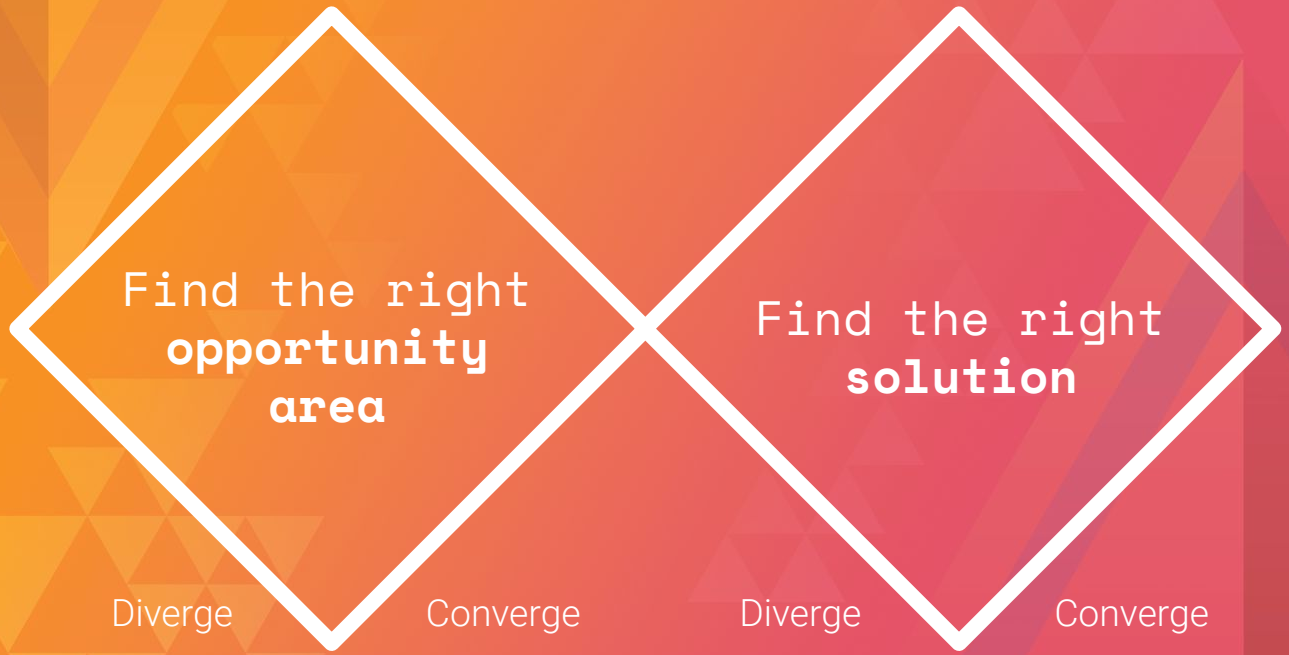
jamming in Amsterdam!



What is a Design Sprint?

A shortcut to learning without building and launching.

The Double Diamond:
divergent <> convergent thinking



Here's the agenda.

Challenges

Introduction to Governance challenges

Team Formation

Join a group with a challenge that resonates with you.

Ideation

Use Design Thinking Methodologies to jam!

Pitch & Feedback

Pitch your final solution to the whole group.

TEAM FORMATION

5 Active Participants

Active Listeners

FACILITATORS: SHELBY (@shelby_steidl) & ABBEY (@abbey_titcomb) FROM RADICLE (@radicle)

CHALLENGE 1

DISTRIBUTION OF INFLUENCE & OWNERSHIP

"How might we effectively distribute influence and ownership amongst active contributors of the DAO?"

FACILITATOR - PAYTON ROSE (@ProseEleven) from MAKERDAO (@makerdao)

CHALLENGE 2
WORKFORCE EFFICIENCY

"How might we reallocate the workforce to be more efficient?"

FACILITATOR - ZAKKU (@fifthworldzach) FROM COORDINAPE (@coordinape)

CHALLENGE 3
CONTEXT IN A DISTRIBUTED COMMUNITY

"How might we build shared context on sensitive topics in a distributed community?"

FACILITATOR - PATRICIA (@superpatx_) FROM EULER FINANCE (@eulerfinance)

CHALLENGE 4

TECHNICAL COMMUNITY ENGAGEMENT

“How might we increase community engagement in highly technical DAO decision making?”

All challenges:

1: “How might we effectively distribute influence and ownership amongst active contributors of the DAO?”

2: How might we reallocate the workforce to be more efficient?

3: How might we build shared context on sensitive topics in a distributed community?

4: How might we increase community engagement in highly technical DAO decision making?

Introduction Time

5 active participants

Introduce yourself to your group in 1 sentence.

Your name, what you work on
and why you've joined the workshop.

(1 minute each)

I Like

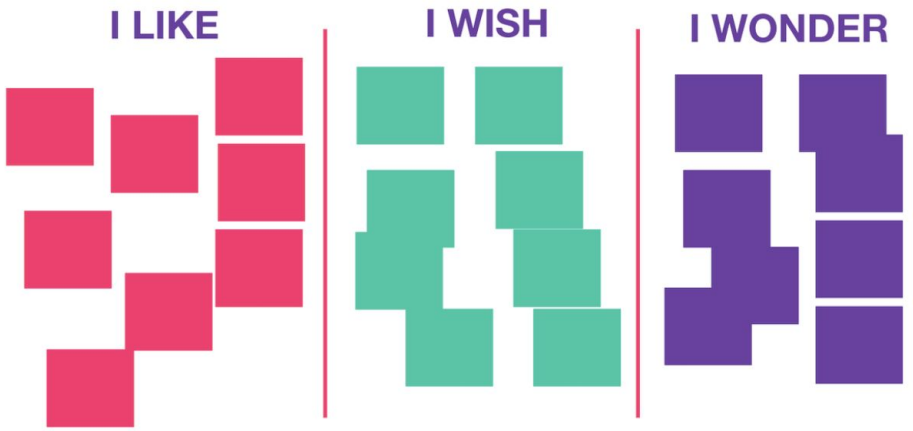
Inspiration from existent solutions & innovations (inside or outside of web3)

I Wish

Existing tools & solutions that could be improved or expanded (eg. new features)

I Wonder

Future vision
Would this be possible?
Any unintended consequences?



Dotmocracy
