

Web3 + Ukraine Government

Integration & Impact

Max Semenchuk

Deputy director Virtual Assets Project Office,
Ministry of Digital Transformation of Ukraine

How I've got here?

- 17 years in various positions in IT
- Is there a better way to work?
- DAOs, Eth Governance, my 3rd Devcon
- Community & Cultural aspects
- Covid Hacktivism
- Ministry of Digital Transformation of Ukraine

What's on agenda?

- Ecosystem Development
- Vision & Foresight for Capacity Building
- Crisis Management
- Case Studies

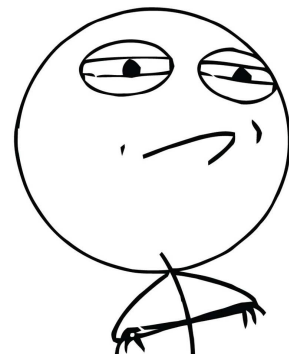

Part 1

The Challenge

Ukraine Context

- Leadership in adoption has it's reasons
- Regulation efforts
- New Ministry – government in a smartphone
- Crypto Reputation & Opposition

CHALLENGE ACCEPTED

Challenges

- Conflict of visions / perception of the ecosystem
- Lack of trust and internal holy wars (crypto anarchist vs gov)
- No aligned strategy for global
- Scarce resources (mid bear market)

Fun, right?

VASP Registry: Case Study

- Small case, 3 choices: public, private, centralized
- Swiss Consultants: Ethereum!
- Donors: Not the case for blockchain
- Business: No, thanks!
- Gov Lawyers: What's blockchain?

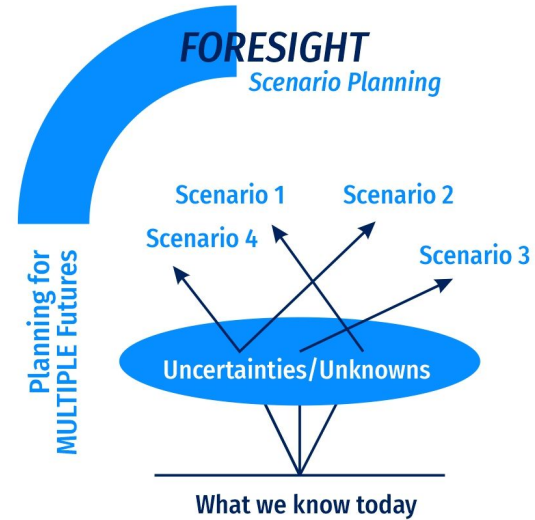

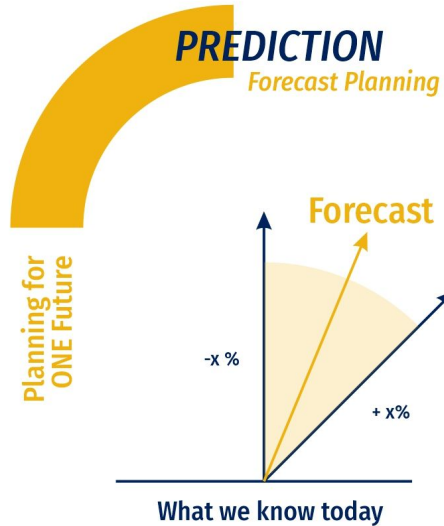

So what do you think we chose?

Part 2

The Vision

What is Foresight?

Systematic + Participatory

Government

- 10+ Ministries and Gov Departments (Digital Transformation, National Bank, Securities Commission, Cyberpolice etc)
- 10+ Parliamentarians

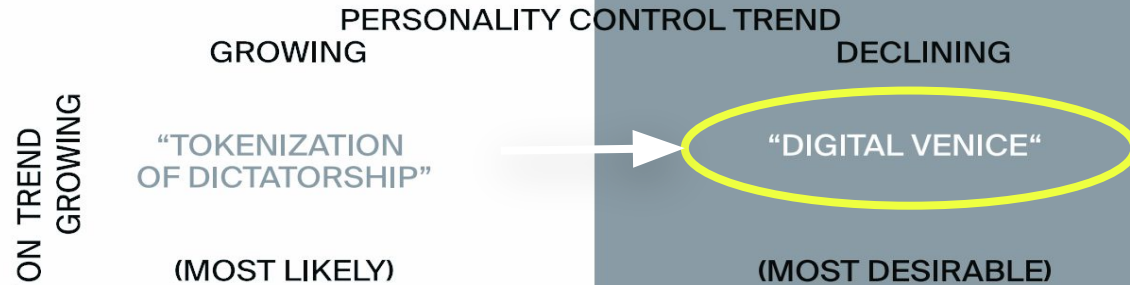

Business

- Profile Lawyers
- Business Consultants
- Crypto Mining
- Software Developers
- Traders
- Investors
- Media
- Banks
- Real Estate

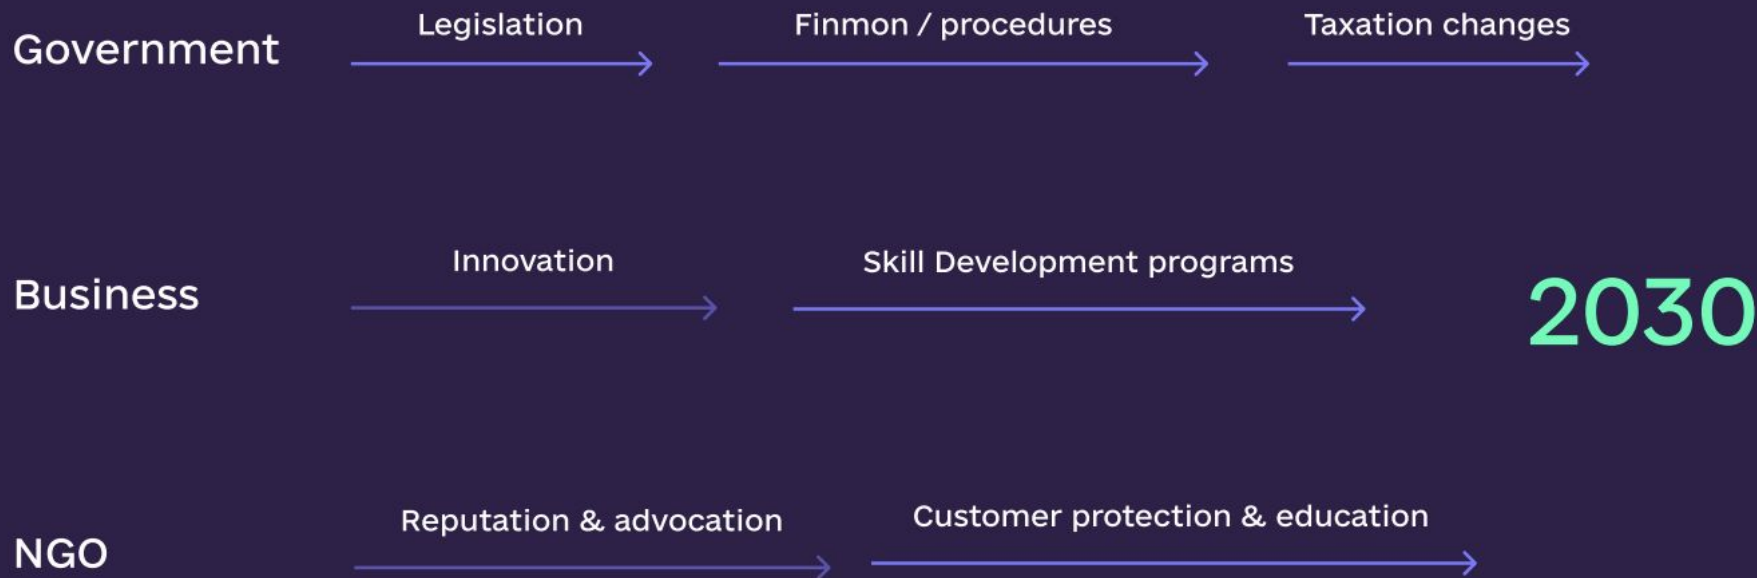

Society

- 5+ Industry Associations
- International organization and partners (UNDP, Swiss Embassy...)
- Educators
- Economists
- Sociologists

Future intelligence gathering and Long-term vision-building process

Roadmap: enabling present-day decisions and mobilizing joint actions

Success!

After 6 months, multiple meetings and myriad of zooms

- Identified key stakeholders positions and preferred development scenario (70% buy-in)
- Extensive Knowledge base (roadmap, report...)
- Friendship, Trust & Positive Feedback
- 11 working groups initiated by the participants
- Expert Project Office & first projects funding

What can go wrong?

Part 3

The War

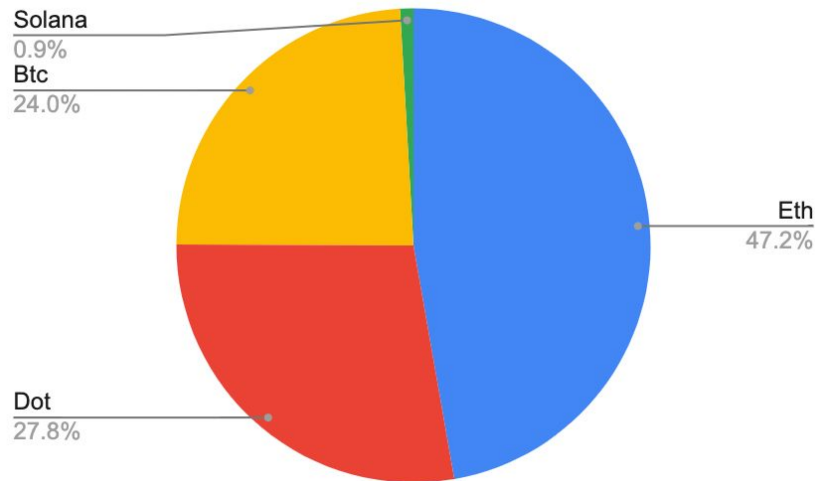

Aid 4 Ukraine

- 50k+ addresses
- Donated \$60M+
- Speed, Transparency
- Average donation ~\$300
- Whales \$100k-\$5M

CryptoPunk ~\$100k

**META
HISTORY
OF WAR**

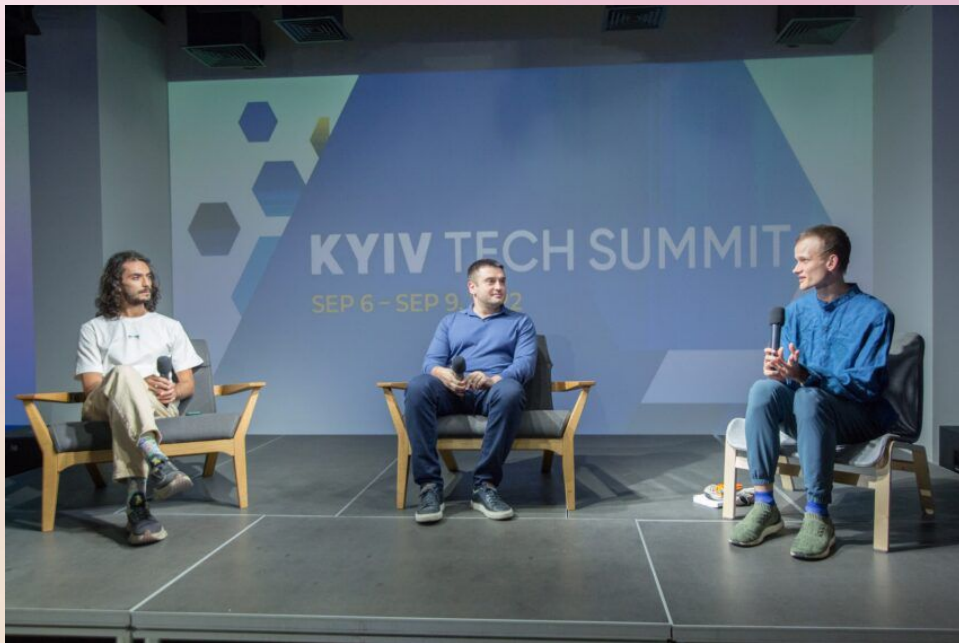

Ukraine thanks you!

Web3 role is recognized

Keep hacking together for the world!

- Security and anti-corruption
- Migration challenges
- Ownership rights registries
- “Venice” Ecosystem

Part 4

Outtakes

Vision is key

Sense of community and shared future

Blockchain is a political change

BUIDL inclusive consensus for Win-Win Interactions

Education & Awareness is a good investment

Don't get = Don't trust.

No capacity for partnering in crisis

Let's connect!
