"Conference swag is a form of MEV" (change my mind)

## THE MEV ALIGNMENT CHART

	VALUE PURIST <i>Value must accrue to the block producer as a native token transaction in the reordered block.</i>	VALUE NEUTRAL <i>Value can accrue to a searcher or producer in any form but must be related to the block.</i>	VALUE REBEL <i>Value can accrue to anyone, in any form, at any time, for any reason.</i>
EXTRACTION PURIST <i>Only value in excess of standard block rewards and fees counts as extractable.</i>	"MEV-Boost payments are a form of MEV"	"Arbitrage, sandwiching, and liquidations are forms of MEV"	"51% attacks are a form of MEV"
EXTRACTION NEUTRAL <i>Any value received on chain counts as extractable.</i>	"Block rewards are a form of MEV"	"Gas grieving users to burn more fees is a form of MEV"	"OFAC censorship is a form of MEV"
EXTRACTION REBEL <i>Any value received in any way counts as extractable.</i>	"Nice messages in the data field are a form of MEV"	"Off chain payment for relay access is a form of MEV"	"Conference swag is a form of MEV"

MEV = Value?

Value

MEV

x

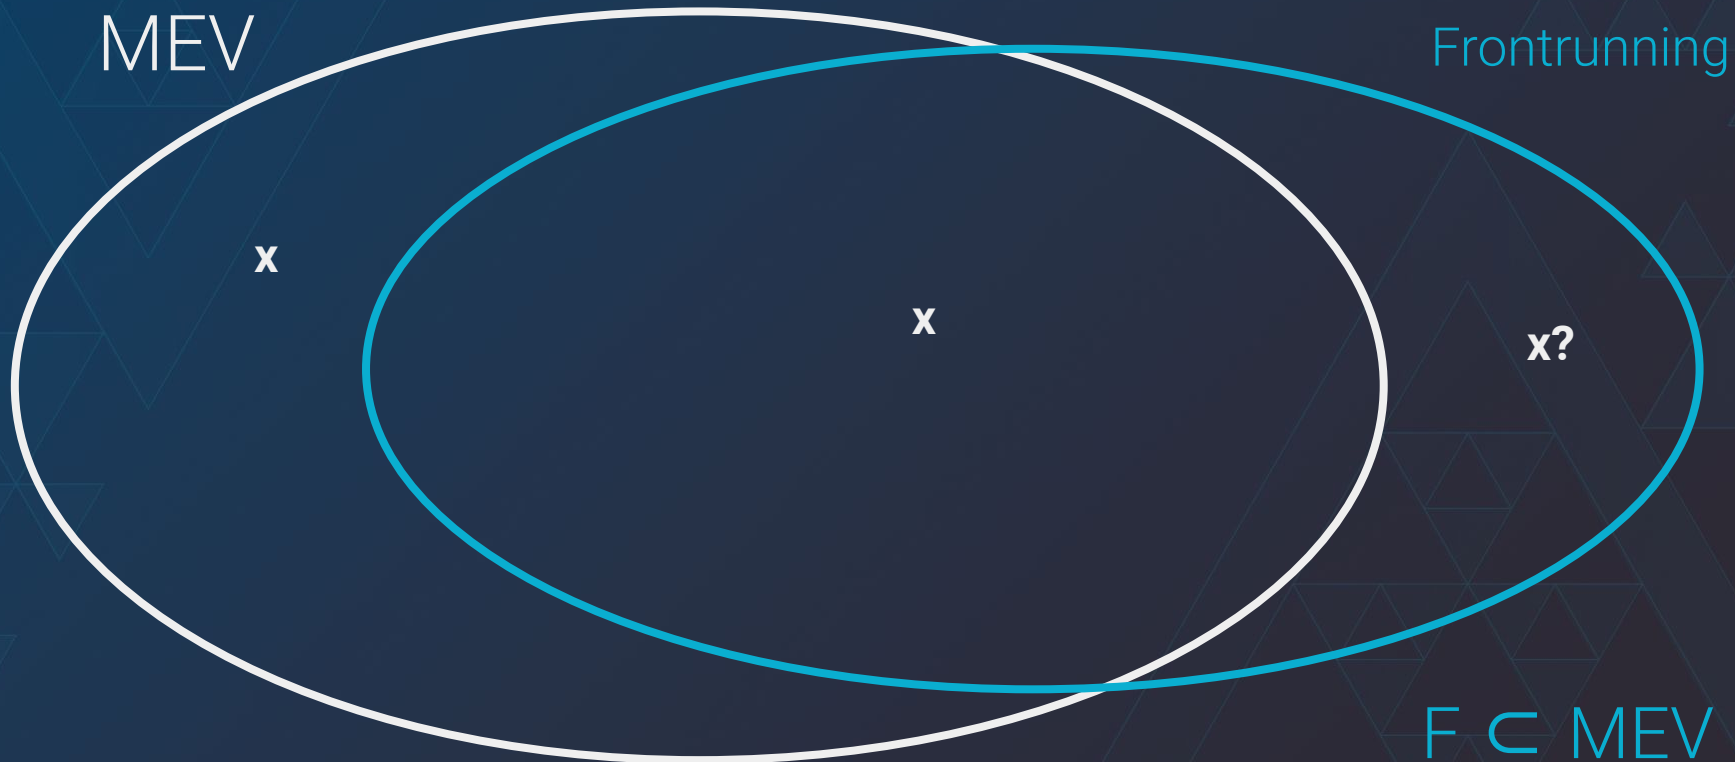

A Venn diagram consisting of two concentric ellipses. The outer ellipse is labeled 'Value' and the inner ellipse is labeled 'MEV'. A small 'x' is located within the 'Value' ellipse but outside the 'MEV' ellipse, illustrating that Value is a superset of MEV.

MEV = Value on the Blockchain?

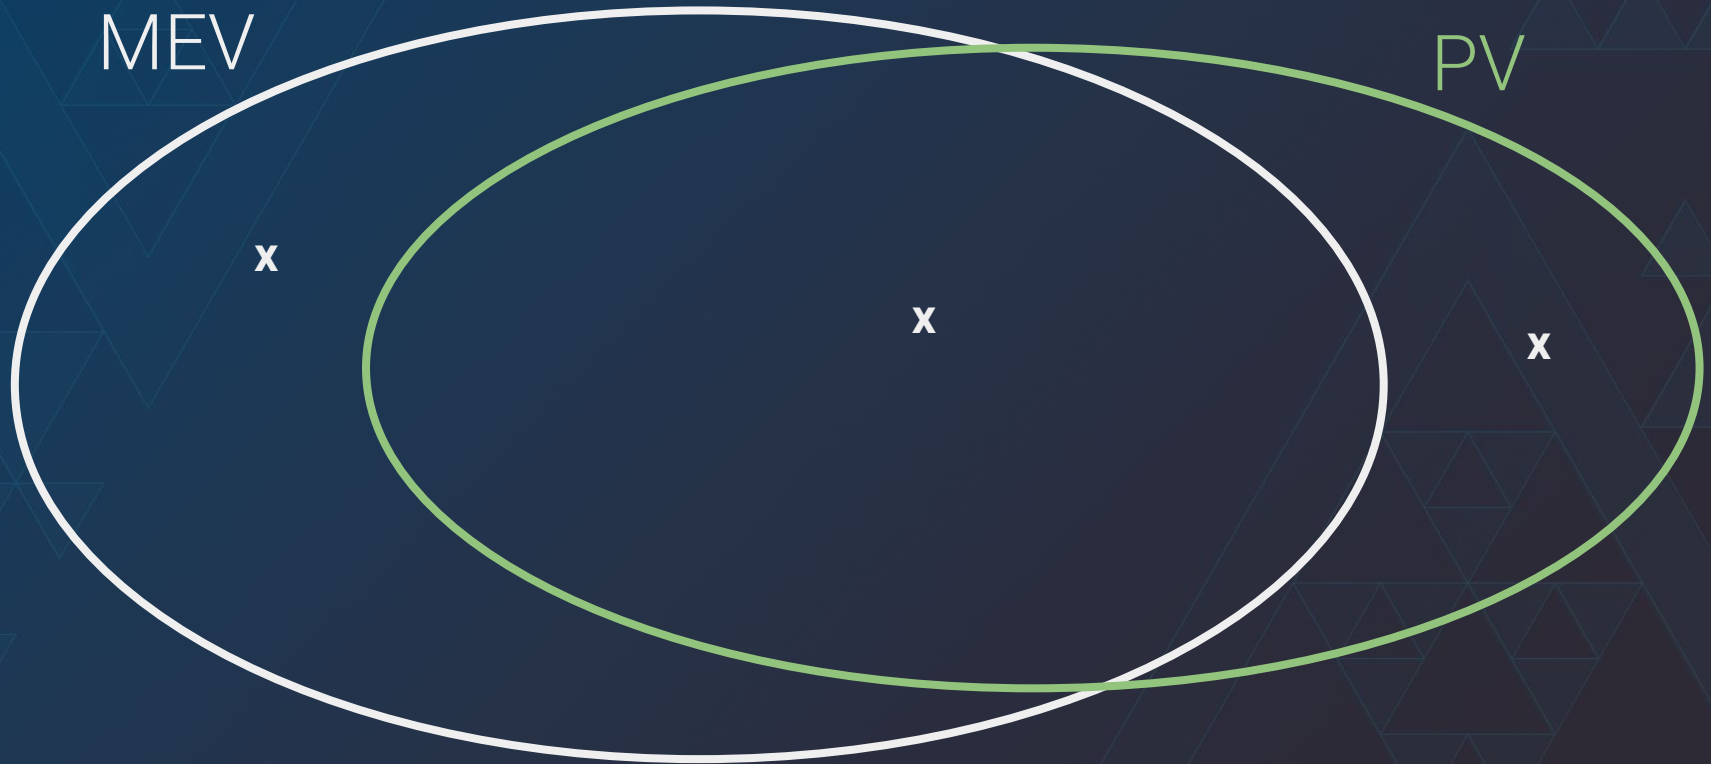

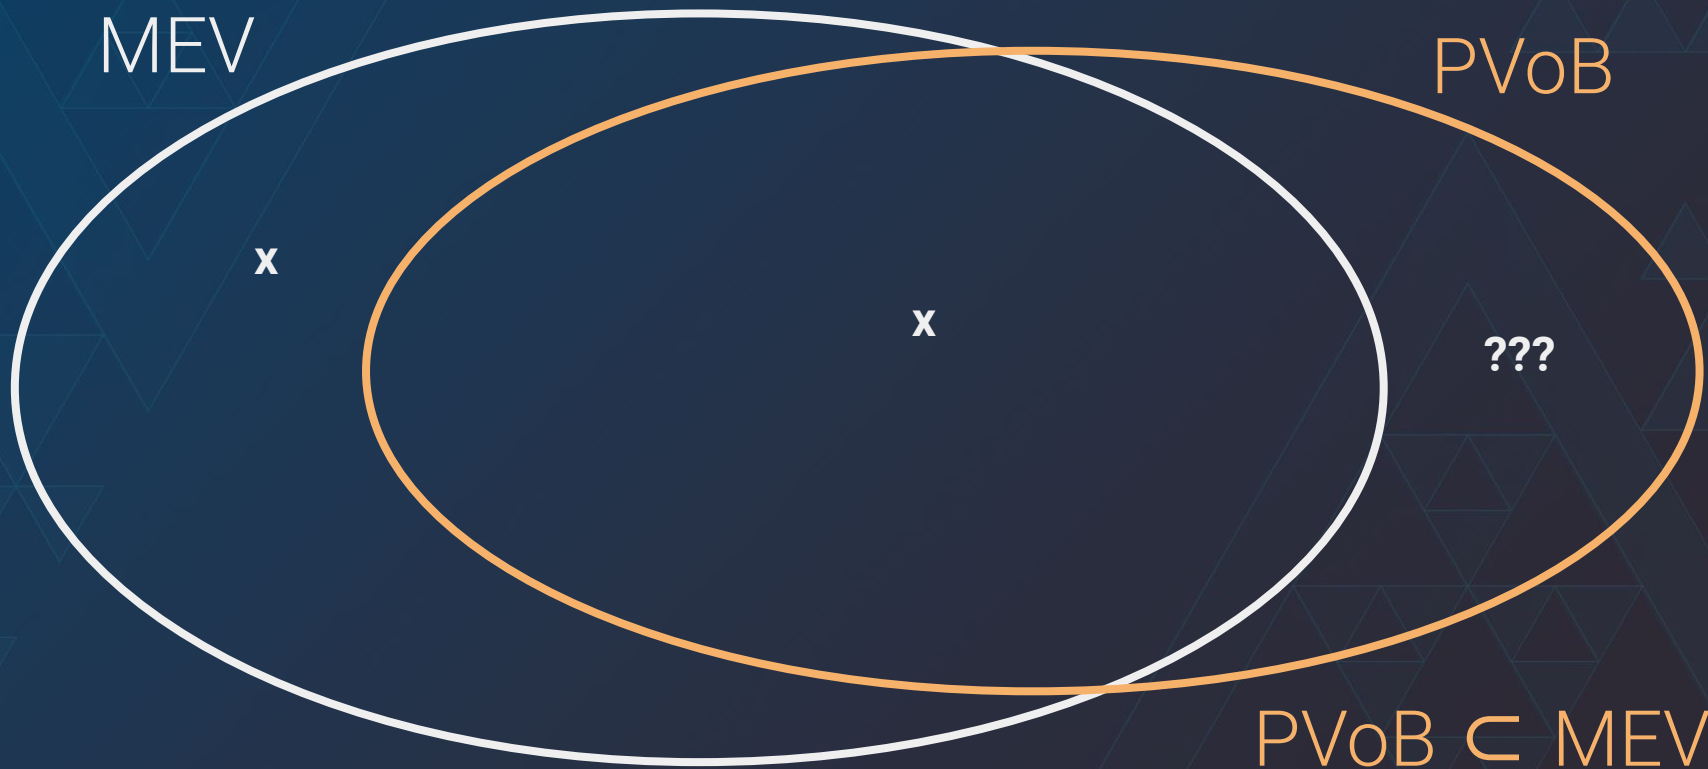

MEV = Frontrunning?

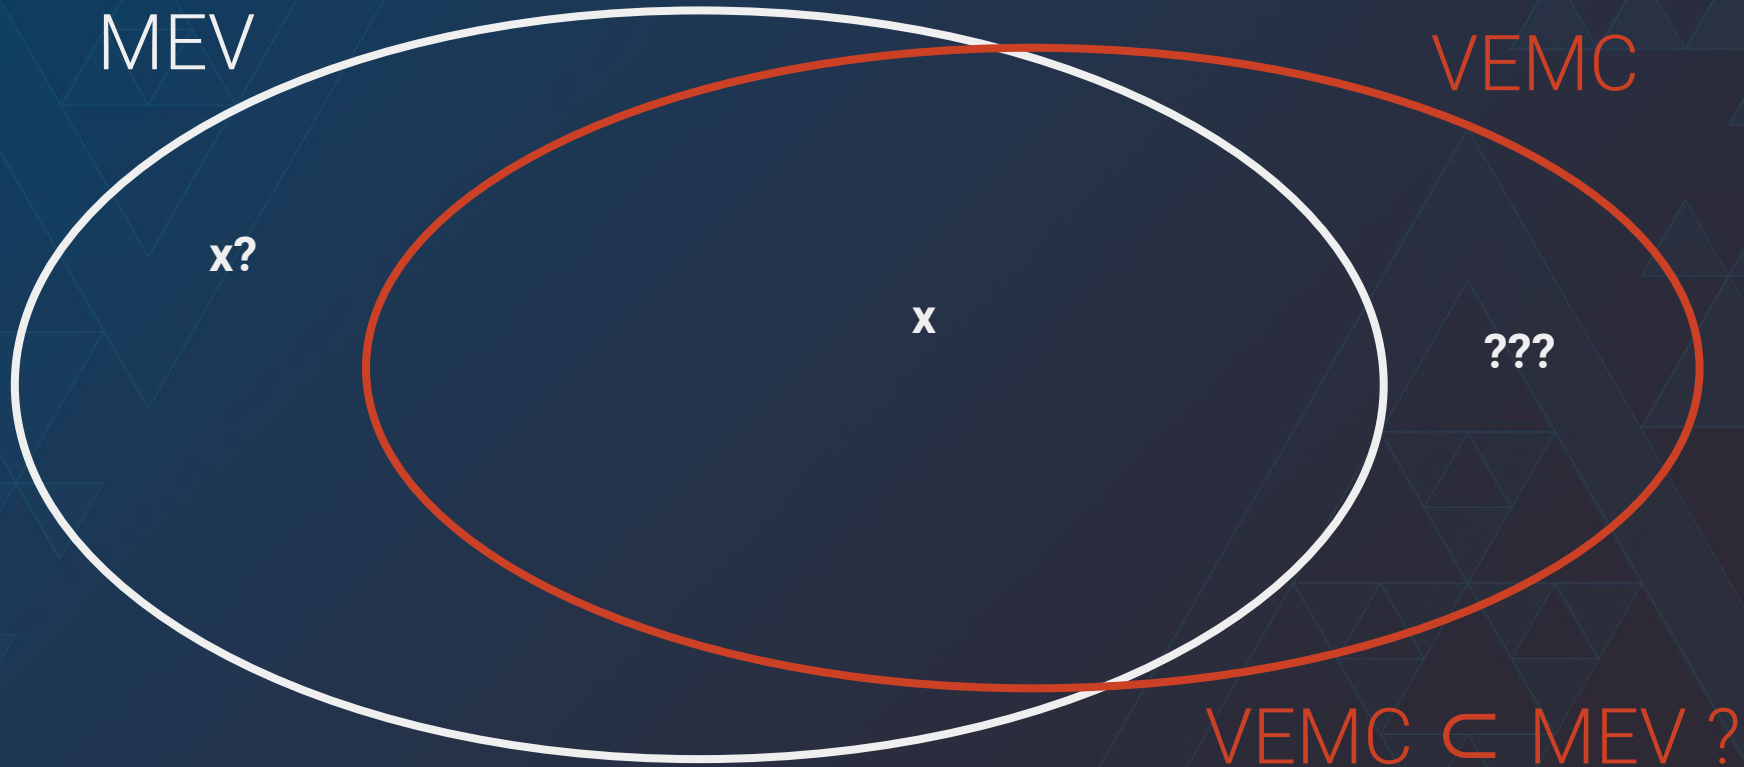

MEV = Permissionless Value?

MEV = Permissionless Value (on the Blockchain)?

MEV = Value Extractable by a Monopolistic Coordinator?

Value Extractable by a Monopolistic Coordinator

**Monarch**

MEV

Permissionless Value  
on the Blockchain

**Moloch**

Frontrunning

**Mafia**

Gracias!
