

Thanks for The Merge

Tim Beiko
Protocol Support @ Ethereum Foundation

WTF is Protocol Support?

not the Ethereum call centre, but a team focused on:

- facilitating protocol upgrades & comms
- building bridges between L1 <> L2 <> dapp layers
- onboarding and retaining core contributors
 - ethereum protocol fellowship
 - protocol guild
 - mementos

... and also **not** the topic of this talk!

The Heroes of The Merge

The Heroes of The Merge

- [ethereum / tests](#) Public
- [ethereum / consensus-specs](#) Public
- [ethereum / EIPs](#) Public

Bug Bounty Program 🐞

How to show appreciation long term?

**core devs too busy to buy conference
tickets when they come out... and
miss the events for the protocol they
help build!**

Introducing the Mergooor Pass 🎟

SBT guaranteeing access to top Ethereum events for the 100+ merge contributors, on-chain (➡️ SOON) & composable 💡

MASSIVE thank you to our launch partners ❤️

One more thing... 

Panda bear has been turned on 

And she's singing the merge song 

Carbon footprint is all gone 

That's why she's signing the merge
soooooooong 

Bug Bounty Program

TTD prediction for The Merge 🌐

Make your own prediction

Come to celebrate at Roedel Merge Afterparty!

Meet us at Hackers Congress

TTD of 5875000000000000000 was achieved at block 15537393 at time Thu Sep 15 06:42:42 2022 UTC

Thank you all for following The Merge at Bordel.wtf! We did it! 🎉

Thank you!
